

ORCHARD BIODIVERSITY FORM

KPIN(s)

Current biodiversity practices:

- Identify if activity is relevant (✓ or x)
- Add any activities not listed
- Tick in the CI column any actions that you may plan to do or have identified as an opportunity for improvement. Move only action(s) you intend to act on in the next 1-3 years to your continuous improvement plan form (The continuous Improvement plan is in Part B: Section 1.6 of the Grower Manual).

Protection Activities	✓ / x	CI
Have you planted riparian strips along waterways	NA	
Do you control weeds and invasive species	✓	
Do you have erosion control	✓	
Have you protected natural bush in adjacent land or gullies	NA	
Clean up watercourses/ wetland areas	NA	
Pest eradication programmes e.g. vermin control in place	✓	
Soil Health see Soil Management plan section 3.1	✓	
Integrated Pest Management (Zespri KiwiGreen)	✓	
New developments assessment completed	✓	
Have you considered the conversion of unproductive land as an area to protect and enhance biodiversity	✓	
Enhancement Activities		
Have you undertaken a survey of flora, fauna and habitat types present on the orchard	x	
Have you an orchard map to visually represent orchard biodiversity enhancement actions	x	
Are you planting natives	✓	
Have you created new habitats	✓	
Are you planting unproductive sites	✓	
Have you encouraged birds e.g., fantail (feeding, host planting)	✓	
Have you introduced beneficial species	✓	
Do you use diverse sward/cover crops	✓
